

Title: Support Your Local Skynet: How to Safely Use A.I. Tools

Abstract: Human deputies aren't obsolete yet, but all our tools seem to be getting A.I. add-ons (of varying quality). Resources like ChatGPT have legitimate uses in law enforcement, but there are pitfalls to avoid. It's time to embrace these technologies and welcome our new A.I. overlords.

Speaker Bio (if needed): Special Deputy Anthony Kava is a life-long hacker and security geek. He has over 15 years of digital forensics and cyber investigations experience and has been assigned to the Iowa ICAC Task Force since 2009. Kava enjoys courtroom testimony, mentoring students to be good hackers, and long walks on the dark web.
