

CATCHING PREDATORS ONLINE

Has your Agency wanted to catch predators in your area?

Price: \$350

The internet is the new playground! This is a 2-day school on how to start online investigations for your agency. No matter how big or small your community is, predators are there or willing to travel there. The emphasis will be on chatting! You will begin chatting on day one with the assistance of an instructor, with presentations throughout both days. Our objectives are:

- Learning to build UC profiles
- Department Needs
- Entrapment issues and how to avoid them
- Case building
- Gathering Evidence
- Meetups/Take downs
- Interviews
- Court testimony

Instructor: Dave Murguia is a Sergeant with a Sheriff's Office in Iowa, with over 20 years of Law enforcement experience. He has conducted numerous online enticing and sexual exploitation cases. These cases have been at both the state and federal level. The cases have primarily been in Des Moines County but has led to the identification and prosecution of predators in various parts of Iowa and across the United States and several other countries.

PLEASE BRING A DEPARTMENT ISSUED LAPTOP AND ITS CHARGER.

Seats are limited. Email Delaware County Sheriff Travis Hemesath to register for the class, themesath@delawarecountyaia.us

**Anyone Can do
these
investigations!**

**Great way to
identify
predators in
your
community!**

**Low-cost
investigations
that make large
impacts in the
community!!**
